AVVERTENZE IMPORTANTI PER TUTTI I FILATI ELASTICIZZATI | IMPORTANT NOTICE FOR ALL STRETCH YARNS WICHTIGE ANMERKUNG FÜR ALLE ELASTIKGARNE | AVERTISSEMENT IMPORTANT POUR TOUS LES FILS EXTENSIBLES:

- Tutti i filati elasticizzati devono accuratamente essere lavorati e vaporizzati per verificare i rientri in larghezza e in lunghezza, che sono soggetti a variazioni in funzione delle lavorazioni utilizzate.
- Comunicare sempre, al momento della trasmissione dell'ordine, l'eventuale utilizzo in rigatura.
- Vista la particolare costruzione di questi articoli e il processo di tintura utilizzato, uno scarto in fase di smacchinatura del 5/7% è da considerare nella norma.
- All stretch yarns have to be worked with great care and steamed to make sure they maintain their length and width, which may vary, depending on the type of stitch being utilized.
- When placing your orders, please always inform us if the yarn is used for knitting in stripes.
- Due to the particular process of spinning and dyeing of these yarns, a waste of 5/7% during the knitting is to be considered within the standards of the quality.
- Alle Elastikgarne müssen sorgfältig verarbeitet und gedampft werden, um das Eingehen in der Breite und Länge zu prüfen, das je nach Muster unterschiedlich sein kann.
- Bei der Gelegenheit der Auftragserteilung wollen Sie uns bitte immer Bescheid geben wenn das Garn auch in Streifen verstrickt wird.
- In Anbetracht der Konstruktion des Artikels sowie des Farbprozesses ist ein Ausschuss von 5/7% beim Stricken in der Norm zu betrachten.
- Tous les fils extensibles doivent être soigneusement tricotés et vaporisés pour contrôler leur stabilité en largeur et en longueur, car ils sont sujets aux rétrécissements selon le type de maille utilisée.
- A l'occasion de la transmission de votre commande veuillez nous prévenir toujours si le fil est tricoté en rayures.
- En considérant la particulière construction de ces articles et le procédé de teinture utilisé, un déchet de 5/7% pendant le tricotage est à considérer normal.

Segnaliamo che l'alpaca, fibra animale naturale, può essere soggetta a leggere variazioni di colore sul greggio. Pertanto non possiamo escludere differenze di tonalità tra lotti diversi dello stesso colore ed eventuale presenza di peli naturali a contrasto - chiari o scuri.

We inform that the natural animal fibre Alpaca could be subject to slight colour variations on the raw material. Therefore we cannot exclude tone difference between dyelots of the same colour and eventual presence of natural hairs - light or dark - in contrast.

Wir möchten darauf hinweisen, dass bei der natürliche Tierfaser Alpaka leichte Farbunterschiede in der Roh Material auftreten können. Deshalb kann man Farbabweichungen zwischen den einzelnen Partien der selbe Farbe, wie auch helle oder dunkler Anwesenheit von natürlichen Haaren, nicht ausschließen.

Nous signalons que la fibre naturelle animale Alpaga peut être exposée à des légères variations de couleur sur la matière première. On ne peut donc pas exclure des variations de tons parmi différents lots de la même couleur ni la présence éventuelle de poils naturels - clairs ou foncés - en contraste.

Alpes' commitment for a sustainable world

International
Alpaca
Association

CHI SIAMO

AIA (International Alpaca Association) è l'associazione con base in Perù che promuove lo sviluppo responsabile e sostenibile dell'industria dell'alpaca.

Alpes Manifattura Filati spa, in quanto socio finanziatore, contribuisce concretamente ai progetti di sviluppo sostenibile e acquista la materia prima alpaca da aziende a loro volta socie, che hanno aderito ai protocolli AIA.

LA NOSTRA MISSIONE

AIA diffonde tra gli associati, in particolare tra gli allevatori e i centri di raccolta della fibra, standard di corretto trattamento degli animali, con metodi di tosatura veloci e indolori, favorendo il benessere e la salute dei camelidi.

AIA è attiva anche nel promuovere la responsabilità sociale nella filiera dell'alpaca, al fine di proteggere la delicata economia delle popolazioni rurali delle Ande, strettamente collegata all'allevamento dei camelidi fin dai tempi più remoti.

WHO WE ARE

AIA (International Alpaca Association) is the Peru-based association that promotes the sustainable and responsible development of the alpaca industry.

Alpes Manifattura Filati spa, as a financing partner, concretely contributes to sustainable development projects and buys alpaca raw material from member companies that have adhered to the AIA protocols.

OUR MISSION

AIA spreads among the associates, in particular among the breeders and the fiber collection centers, standards of correct treatment of the animals, with fast and painless shearing methods, favoring the well-being and health of the camelids.

AIA is also active in promoting social responsibility in the alpaca supply chain, in order to protect the delicate economy of the rural populations of the Andes, closely linked to the breeding of camelids since ancient times.
